ORGANISATION: MIS Training (UK)

ADDRESS: 30 Crown Place

EC2A 4EB

HEAD OF ORGANISATION: Mr Chris Clarke

DATE OF INSPECTION: 10-11 April 2018

ACCREDITATION STATUS AT INSPECTION: Accredited

DECISION ON ACCREDITATION:

☑ Re-accreditation awarded for the full four-year period.

☐ Probation accreditation.

☐ Decision on accreditation deferred.

☐ Accreditation to be withdrawn.

Date: 23 May 2018
1. Background to the organisation

MIS Training (UK) (MISTI/the Provider) was part of Euromoney Institutional Investor, which was founded as a business publishing company in 1969. MISTI was established as a separate company in 2014 and is, therefore, no longer part of Euromoney.

The aim of the Provider is to advance performance through knowledge. The provider runs courses, both in-house at the request of the corporate client, and open training courses delivered at a number of high quality hotels in London. These are open to participants from any company. The courses cover a broad range of areas such as audit, risk management and fraud.

Boathouse Capital, a private equity company, bought MISTI in April 2014. It was at this point that the Provider's Programme Manager took over responsibility as the General Manager of MISTI, reporting to the Chief Executive Officer (CEO) of Boathouse Capital based in Boston. The Provider is led by the General Manager, who is supported by an events manager and a sales team dedicated to covering different geographical regions, for example the Middle East. Boathouse Capital delegates responsibility for the day-to-day running of the company to MISTI staff.

In December 2016, MISTI moved to its current serviced office in Moorgate.

2. Brief description of the current provision

MISTI offers a wide range of courses on audit, fraud and security. the courses focus on the practical application of knowledge. All courses are accredited by the National Association of State Boards of Accountancy (NASBA) in the United States of America (USA). Many programmes are run as open public courses, whilst others are customised for specific client companies. MISTI is a member of the Certification Service for Continuing Professional Development (CPD), which enables delegates to claim CPD points for attendance on the courses.

The courses are delivered in high quality hotels in London, Amsterdam, Cape Town and Dubai. British Accreditation Council (BAC) only accredits the provision in the United Kingdom (UK).

MISTI currently works with around 200 companies, of whom around 20 are UK-based. Around 500 delegates participated in courses during the last year. All delegates are over the age of 18 and most are well-established in their careers, with many at very senior levels. Most delegates, on the London-based programmes, come from outside the UK and, in particular, from emerging markets, with significant numbers from Africa and the Middle East.

During the inspection, five delegates attended the audit and security of databases, operating systems and networks programme. They were all male and came from the UK, Europe and Africa.

Delegates enrol by completing an electronic registration form, submitted via the MISTI website. This generates a telephone call from a member of the sales team and the remaining enrollment processes are conducted electronically.

3. Inspection process

The inspection process took place over two days with one inspector. Discussions took place with the General Manager, the events managers and key sales staff. The inspector also undertook a review of the electronic systems, scrutinised documentation and carried out a tour of the offices. An observation of a training session was carried out. The inspector also reviewed the training materials and resources, interviewed the delegates and the trainer.

      [☐ Yes  ☐ No]

   **This standard is judged to be:**  [☐] Met  [☐] Partially Met  [☐] Not Met

   **Comments**
   Administrators, and the sales team, are highly experienced professionals, who know their geographical markets very well and use their sound local knowledge to develop long-lasting relationships with their client companies.

   Appropriate policies, procedures and systems are largely electronic and are supported by a bespoke software system that enables a comprehensive approach to collecting and handling data.

   The administration offices are of a good size and are well-appointed and resourced. There are break out spaces, in which staff can work if they require more space or privacy.
3. **The provider employs appropriate managerial and administrative staff**

3.1 There are appropriate policies and effective procedures for the recruitment and continuing employment of suitably qualified and experienced staff.

**Comments**

The recruitment of staff follows an appropriate formal procedure, which includes two interviews for all new appointees.

All staff are scheduled to receive an annual formal appraisal.

3.3 The appraisal system is not fully implemented and some staff have passed the due date for their appraisal. The sales staff receive a bi-annual review of their performance relating to the meeting of their financial targets. Whilst this is useful in evaluating some aspects of performance, it does not capture the full range of performance indicators or provide the basis for staff to reflect on their performance.

4. **Publicity material, both printed and electronic, gives a comprehensive, up-to-date and accurate description of the provider and its programmes**

4.1 Text and images provide an accurate depiction of the provider’s location, premises, facilities and the range and nature of resources and services offered.

**Comments**

The paper-based and electronic publicity material, including the website content and appearance, is of a very high standard. Material is informative, accurate and produced to a high standard of professionalism.
5. **The provider takes reasonable care to recruit and enrol suitable participants for its courses**

5.1 Entry requirements for each course, including those relating to language ability, are set at an appropriate level and clearly stated in the course descriptions seen by prospective participants.  

5.2 A formal application process ensures that participants meet the entry requirements and any claimed qualifications are verified.  

5.3 The provider replies to all application enquiries promptly and appropriately and briefs all stakeholders properly on the nature and requirements of its programmes.  

5.4 Any overseas recruitment agents are properly selected, briefed, monitored and evaluated.  

This standard is judged to be:  

- Met
- Partially Met
- Not Met

**Comments**

Delegates complete an appropriate online registration form. For specific courses, delegates are also required to complete a pre-course information form so that their course directors, who deliver the courses, can tailor the highly technical content of their provision to meet their delegates’ needs. This is an effective approach that ensures the delegates receive exactly the training they need. As a result, participants’ evaluations of their courses are highly positive.

In all cases, the sales team makes direct contact, by either telephone or e-mail, to ensure that the course will fully meet the expectations of the delegate or their sponsor organisation. The sales team and managers are skilled at determining the appropriateness of their provision, by matching it accurately to the delegates’ position and job title within their organisation.

6. **There is an appropriate policy on participant attendance and effective procedures and systems to enforce it**

6.1 There is a clear and published policy on participant attendance and punctuality.  

6.2 Accurate and secure records of attendance and punctuality at each session are kept for all participants, collated centrally and reviewed.  

6.3 Participant absences are followed up promptly and appropriate action taken.  

This standard is judged to be:  

- Met
- Partially Met
- Not Met

**Comments**

Delegates sign a register each day. They highly value the opportunity to undertake the course and, therefore, attendance rates are very high.

Delegates’ attendance and participation provide the evidence for course achievement. This is recognised in the form of an MISTI certificate of attendance and the allocation of the number of CPD points generated by the hours of attendance.
7. The provider regularly obtains and records feedback from participants and other stakeholders and takes appropriate action where necessary

7.1 The provider has effective mechanisms for obtaining feedback from participants and other stakeholders (such as staff, partner providers and employers) on all aspects of the provider’s provision, including formal participant representation where appropriate.

7.2 Feedback is obtained, recorded and analysed on a regular basis.

7.3 The feedback is reviewed by management and action is taken where necessary.

7.4 There is a mechanism for reporting on the provider’s response to the feedback to the participant body.

This standard is judged to be:  Yes  No

Comments
Delegates complete feedback sheets after each training course. The outcomes of these sheets, including the grading of various course aspects, are collated and analysed on a master spreadsheet. If a scoring of seven or less is identified, delegates are contacted by telephone to evaluate the reason for the score and to make any necessary adjustments to future programmes. This is a thorough and efficient process that ensures close monitoring and investigation of any low to moderate scores. This results in a cycle of continuous improvement.

8. The provider has effective systems to review its own standards and assess its own performance with a view to continuing improvement

8.1 There are effective systems for monitoring and periodically reviewing all aspects of the provider’s performance.

8.2 Reports are compiled which present the results of the provider’s reviews and incorporate action plans.

8.3 Action plans are implemented and regularly reviewed.

This standard is judged to be:  Yes  No

Comments
MISTI uses a good range of relevant information, collected from a variety of sources, to evaluate its performance. These include a keen focus on course cancellation rates and close scrutiny of each delegate feedback form. This analysis is used to reduce course cancellation rates and to follow up any deficiencies identified in delegates’ feedback.

However, there are a number of omissions in the data gathered. For example, the data does not include comparative grades for the trainers and the course content. This additional information could help provide a sharper and broader evidence base for self-evaluation.

8.2 Although an annual verbal report is provided to the CEO and to the team, this focuses on its financial effectiveness and does not comprise a full analysis of the performance of the organisation. Therefore, it does not sufficiently evaluate the continuous improvement of, for example, feedback grades or the quality of its training by means of the production of an annual written report.

8.3 There is currently no comprehensive action plan that covers all aspects of quality improvement.
9. **Programme management is effective**

9.1 There is a suitably qualified and experienced programme manager or management team with responsibility for teaching, learning and assessment and the management of the body of trainers.  
[ ] Yes  [ ] No

9.2 Classes are timetabled and rooms allocated appropriately for the courses offered.  
[ ] Yes  [ ] No

9.3 The allocation of trainers to classes provides for a consistent learning experience and delivery is monitored to ensure consistency.  
[ ] Yes  [ ] No

9.4 There is an appropriate policy and effective procedures for the acquisition of teaching and learning resources.  
[ ] Yes  [ ] No

**This standard is judged to be:**  
[ ] Met  [ ] Partially Met  [ ] Not Met

**Comments**

All staff take great care to ensure that the course directors' skills and experience are closely matched to delegates’ needs and interests. As a result, feedback is very positive in the very large majority of cases. In the very few cases where feedback is not above a score of seven, appropriate action is taken to ensure that subsequent courses take account of the feedback from previous delegates.

Teaching and learning resources are of a very high standard. Course directors are enabled to provide the highest quality resources for their delegates, for example laptops with bespoke software installed. The delegates are highly positive about this aspect of the course.

10. **The courses are planned and delivered in ways that enable participants to succeed**

10.1 Courses are designed and delivered in ways that allow participants to develop the knowledge and skills which will be required for final examinations or assessments or which meet stakeholders' requirements.  
[ ] Yes  [ ] No  [ ] NA

10.2 Lessons and assessments maintain an appropriate focus on any assessment objectives or statement of learning outcomes established by the awarding body.  
[ ] Yes  [ ] No  [ ] NA

10.3 Formative assessments appropriately reflect the nature and standards of summative examinations.  
[ ] Yes  [ ] No  [ ] NA

10.4 Participants are encouraged and enabled to develop independent learning skills.  
[ ] Yes  [ ] No  [ ] NA

10.5 The academic backgrounds and particular needs of participants are taken into account in the classroom delivery of the course.  
[ ] Yes  [ ] No

**This standard is judged to be:**  
[ ] Met  [ ] Partially Met  [ ] Not Met

**Comments**

Courses are designed to fully meet the needs of the delegates.

Formative, informal assessment takes place via the completion of case studies or tasks that enable course directors to evaluate the extent to which the delegates make progress. Course directors use this information to adapt subsequent sessions to enable all delegates to maximise their learning so that they all make good progress.
11. Trainers are suitable for the courses to which they are allocated and effective in delivering them

11.1 Trainers are appropriately qualified and experienced.

11.2 Trainers have a level of subject knowledge, pedagogic and communicative skill which allows them to deliver the content of courses effectively.

11.3 The appraisal procedures for trainers incorporate regular classroom observation.

11.4 Trainers are supported in their continuing professional development and enabled to develop further pedagogic techniques to enhance the learning of participants.

11.5 Trainers respond to different learning needs of participants where appropriate, taking various learning styles into account in their planning and delivery of lessons.

11.6 Trainers employ effective strategies to involve all participants in active participation and to check their understanding of concepts and course content.

This standard is judged to be: ☐ Met ☐ Partially Met ☐ Not Met

Comments
Course directors are highly qualified and skilled in both their specialist subject area and in the delivery of training.

The delegate feedback forms indicate high levels of satisfaction with the training and that trainers take great care to ensure their materials and methods engage and educate their delegates.

11.3 11.4 The contractual status of the course directors does not require course directors to receive appraisals and current arrangements do not include regular training observations. Training sessions are visited to ensure delegate comfort. However, the lack of systems, such as session observations and the gathering of comparative data on trainer performance, means that best practice is not shared and there is no summary view of the quality of the training.

12. The provider provides participants and trainers with access to appropriate resources and materials for study

This standard is judged to be: ☐ Met ☐ Partially Met ☐ Not Met

Comments
Delegates receive high quality and comprehensive training manuals for each course. Many sessions are very well resourced using laptops, pre-loaded with highly specialised software, which enable delegates to use the latest technologies and applications.

In addition, many Course Directors are published authors and provide extended reading lists for their delegates.
13. Participants receive appropriate assessment and feedback on their performance and progress, which are effectively monitored

13.1 Feedback is given to individual participants tailored to meet their specific needs and constructive in its nature and delivery.  

13.2 Courses are planned to include a schedule of assessments, the procedures and criteria for which are available in writing and in advance to participants and trainers.  

13.3 Assessment outcomes are monitored to enable the identification of participants who are not making satisfactory progress and prompt intervention where appropriate.  

13.4 Participants are made aware of how their progress relates to their targeted level of achievement.  

13.5 Additional support or advice on alternative courses is provided to participants who are judged not to be making sufficient progress to succeed.  

13.6 Participants have appropriate access to trainers outside class time.

This standard is judged to be:  ☐ Met  ☐ Partially Met  ☐ Not Met  ☐ NA

Comments
Useful feedback to delegates is provided verbally or, if required by the delegate or their employer, in writing. No other forms of formal assessment or evaluation of learning are currently required.

However, the delegates often make significant progress in both their theory knowledge and skill development. They also gain confidence and improve their presentation skills. These aspects of their progress are not currently evaluated by delegates who would benefit from an opportunity to reflect on their learning and the progress they have made.

14. The provider offers courses leading to accredited awards granted by recognised awarding bodies wherever appropriate

This standard is judged to be:  ☐ Met  ☐ Partially Met  ☐ Not Met  ☐ NA

Comments

15. There is a clear rationale for courses leading to unaccredited or internal awards

15.1 There is a clear statement of the level claimed relative to the NQF/QCF and evidence that participants who receive the award meet the stated requirements for that level.  

15.2 There is evidence of the extent to which the awards are accepted for the purposes of employment or further study.  

15.3 External moderators are involved in the assessment process where appropriate.

This standard is judged to be:  ☐ Met  ☐ Partially Met  ☐ Not Met  ☐ NA

Comments
16. There are satisfactory procedures for the administration of examinations and other means of assessment

Additional space for staff to use in the serviced office building is available on request.

Delegates have access to spacious lounges and reception and restaurant areas at the various hotels used for their training courses. This ensures that the delegates have space for relaxation and private work.

Trainers are self-employed and work remotely to prepare sessions. However, if they require space to amend or update training materials, there is sufficient space at both the serviced office and any of the hotels used for training.

RECOMMENDED AREAS FOR IMPROVEMENT (to be reviewed at the next inspection)

MISTI is recommended to extend the data it collects to include the relative grading of course directors by delegates, in order to provide a more forensic and expansive overview of its performance.

The Provider should consider introducing an appropriate method to enable delegates to evaluate their starting points and reflect on their learning at the end of the course so that they can evaluate the progress they have made.
